

Week 1, Lesson 2 Resources

The following resources were selected to provide an overview of the topic of Dapp Defined. We would like to acknowledge the authors of the various web articles, videos, and papers for their insightful discussions and analytics which help formed the basis for some sections of the lessons and modules.

Title of resource: [Decentralized Applications-dApps](#)

Resource type: website

Description: dApps, have existed since the advent of P2P networks. They are a type of software program designed to exist on the Internet in a way that is not controlled by any single entity.

Title of resource: [The Future will be Decentralized](#)

Resource type: video (13:35)

Description: This talk was given at a local TEDx event, produced independently of the TED Conferences. Tech entrepreneur and mathematician Charles Hoskinson says Bitcoin-related technology is about to revolutionise property rights, banking, remote education, private law and crowd-funding for the developing world.
